MEMORANDUM FOR: Chief, Information Processing Staff, OPPB

SUBJECT : Consolidated Report on Information Handling  
and ADP Accomplishments

1. Attached are Support Directorate contributions, by office, on ADP accomplishments for the first half of fiscal year 1971.

2. Negative reports were submitted by the Office of Training and the Office of Medical Services. SIPS Task Force accomplishments are reported by the DDS offices. These accomplishments include the development, operational test and approval and operation of two specialized inventory control applications for Technical Services Division and the Office of Communications. These applications, [redacted] have been reported previously. A major Task Force accomplishment was the development of specifications leading to the selection and recent contracting for the Generalized Information Management System (GIMS), a proprietary file management system developed by Thompson Ramo Woolridge. Information concerning GIMS is available in the Office of Computer Services report.
